Sensors Letters

Now in Second Year of Publication

- IEEE Sensors Letters is a peer-reviewed, online journal devoted to all aspects of sensors and sensors technology.
- IEEE Sensors Letters publishes articles of 4 pages or less and is intended for rapid publication (six weeks or less) of the latest contributions and results.
- The fields of interest of the IEEE Sensors Letters are the theory, design, fabrication, manufacturing, signal processing, interface circuits, and applications of devices for sensing and transducing physical, chemical and biological phenomena.

Rapid Publication

Submission-to-ePublication = 7 weeks, median
