

IEEE J-MASS

IEEE Journal on Miniaturization for Air and Space Systems

The IEEE Journal on Miniaturization for Air and Space Systems (J-MASS) is a new technical journal devoted to covering the rapidly evolving field of small air and space systems such as drones and small satellites. These platforms offer new, low-cost ways to accomplish a wide range of sensing functions for applications ranging from agriculture to land use and ocean surveys.

Call For Papers

Papers are sought that address innovative approaches to solving problems related to the development and use of miniaturized platforms such as drones and CubeSats.

The scope includes both the sensors (across the electromagnetic spectrum) and platform systems. These topics include: airframe, propulsion, controls, navigation, power, communication, etc. Papers addressing theory, application, and operation of small platforms along with the design and development of platforms and sensor systems are welcome. Papers covering educational aspects are also encouraged.

Manuscripts should be submitted to (mc.manuscriptcentral.com/JMASS) and should be original work within this scope. Manuscripts submitted to this journal must not have been published before and must not be under consideration for publication elsewhere. Further information is available as Instructions for Authors at the same URL for manuscript preparation, submission, and tracking. **In addition to regular papers, proposals for Special Issues organized around conferences or focused themes are sought.** For more information about proposing a Special Issue, please contact the J-MASS EIC (Contact information below).

IEEE Copyright Form

Since the policy of the IEEE is to own the copyright to the technical contributions that it publishes, an electronic Copyright Form must be submitted at the time of manuscript submission.

Over-length Fees

Up to eight (8) pages are published for no charge; articles that exceed the 8-page limit are charged an over-length page charge of \$200/page.

J-MASS Sponsors

The J-MASS sponsorship consortium includes:

The IEEE Systems Council

The IEEE Sensors Council

The IEEE Geoscience and Remote Sensing Society

The IEEE Instrumentation & Measurement Society

The IEEE Aerospace and Electronic Systems Society
