

EDITOR-IN-CHIEF

SANDRO CARRARA
*École Polytechnique Fédérale de Lausanne
(EPFL), CH*

ASSOCIATE EDITOR-IN-CHIEF

GERALD GERLACH
Dresden Univ. of Tech., Germany

TOPICAL EDITORS

Radiation Sensors

CHENG-TA CHIANG
National Chia Yi University, Taiwan

Sensor Systems Integration

MEHMET YUCE
Monash Univ., Australia

Sensor Applications

SUBHAS C. MUKHOPADHYAY
Macquarie University, Australia

Mechanical & Magnetic Sensors

PAUL C.-P. CHAO
National Chiao Tung Univ., Taiwan

Chemical & Biosensors Sensor Materials

CAMILLA BARATTO
National Institute of Optics, Italy

Sensor System Networks

KISEON KIM
Gwangju Inst. Sci. Tech., Korea

Sensor Phenomena and Modelling

ZEYNEP CELIK-BUTLER
Univ. of Texas at Arlington, USA

Fiber Optic Sensors

CARLOS RUIZ
Public University Navarra, Spain

Sensor Data Processing

MARCO DA SILVA
*Universidade Tecnológica
Federal do Parana, Brazil*

Sensor Interface Electronics

STOYAN NIHTIANOV
Delft Univ. of Tech., The Netherlands

TOPICAL EDITOR-AT-LARGE

JOHN R. VIG
Consultant, USA

In addition there are over 70 Associate Editors in the Editorial Board. A complete list can be found on the journal's website.

The IEEE Sensors Journal is a peer-reviewed scientific journal. The fields of interest of the Journal are the theory, design, fabrication, manufacturing, and applications of devices for sensing and transducing physical, chemical and biological phenomena, with emphasis on the electronics and physics aspect of sensors and integrated sensors-actuators. It is published semi-monthly, online, by the IEEE Sensors Council. According to the Journal Citation Reports, the IEEE Sensors Journal has seen its impact factor increase to 3.076 in 2018, and the time from Submission to ePublication averages about 7 weeks.

The topics of interest of the IEEE Sensors Journal include:

All types of sensing:

- Mechanical
- Thermal
- Optical
- Magnetic
- Radiation
- Micro-wave
- Chemical
- Biological
- Mass
- Integration

Also of interest are:

- Sensor Packaging
- Interconnection
- Modeling
- Wireless Sensing
- Stability (e.g., noise)
- Characterization
- Sensor Signal Processing
- Sensor Arrays (e.g., e-nose),
- Sensor Systems
- Intelligent Sensors
- Sensor-actuators
- Applications
- Sensors interfaces
- Networks

MANUSCRIPT SUBMISSION

Submissions, original papers only, are to be made electronically through IEEE Manuscript Central, over its Webpage. This site, mc.manuscriptcentral.com/sensors, contains instructions on how authors proceed with a submission. Please do not send submissions or revisions directly to the Editor-in-Chief or Associate Editors.

mc.manuscriptcentral.com/sensors

Authors are required to prepare manuscripts employing the double column style template developed by IEEE. Information for authors, on article preparation and submission, templates, etc. can be found at:

www.ieee-sensors.org/information-for-authors

Further information about this Journal is available at:

www.ieee-sensors.org/sensors-journal
