

CALL FOR POSTERS

IMPORTANT DATES

February 18, 2024

Initial Poster Submission Deadline

March 18, 2024

Poster Acceptance Notification

April 6, 2024

Final Poster Submission Deadline

ORGANIZING COMMITTEE

General Co-Chair

Stoyan Nihtianov
ASML

General Co-Chair

Kofi Makinwa
Delft University of Technology

Technical Program Co-Chair

Viola Schaffer
Texas Instruments GmbH

Technical Program Co-Chair

Patrick Mercier
University of California, San Diego

Treasurer

Srinivas Tadigadapa
Northeastern University

Posters Chair

Martijn Snoeij
Texas Instruments

Program Committee Members

Azita Emami
California Institute of Technology

Hossein Hashemi
University of Southern California

Drew Hall
University of California San Diego

New in 2024: Call for Posters in the Area of Sensors and Interfaces

The Sensor Interfaces Meeting is expanding to include poster sessions to give participants the chance to share, discuss and debate the latest trends and advances, as well as industry leading products. Accepted posters will describe sensor interfaces, architectures and concepts, and their application to new challenging areas. We encourage the submission of state-of-the-art mature, already industrialized sensor interface solutions, as well as emerging interface concepts and solutions with highly innovative and revolutionary potential.

We welcome submissions that align with the Sensors and Interface Meeting topics of interest and seek equal participation from both industry and academia. Example areas include but are not limited to:

- » Sensor readout techniques, system level concepts and enabling circuits
- » Sensor interface products demonstrating industry-leading performance
- » Modeling and simulation of multi-domain-sensor interfaces
- » Direct sensor-to-digital converters
- » Sensor interfaces for health monitoring
- » Sensor interfaces in extreme environments
- » Sensor interfaces enabling Internet of Things (IoT)

The selection will be based on the short abstract and the preliminary poster. They will be evaluated based on **technical merit and innovation as well as the potential to stimulate interesting discussions and exchange of ideas** at the conference. Please submit a 200 word (max) abstract and your preliminary poster using the workshop template in pdf format. After acceptance submissions may be finalized prior to the event. Please note that a submission implies the intent of at least one author to register and attend the conference and present the poster as scheduled.
